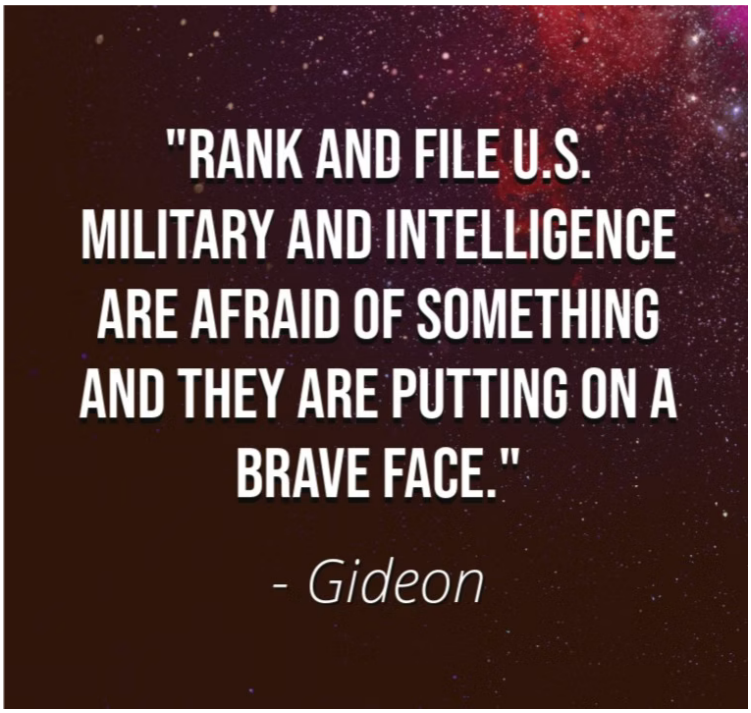
Intel Drop #79 - Confrontation At A Secret Briefing



A quick reminder, all of our articles and Intel Drops can be found on our website at **CBDCIntel.org** and you can follow **Bill's Twitter**, contact Bill personally on his Telegram (billsweet1), follow our Official Twitter, our News Twitter and our Telegrams for updates (Comms, Public, News & Chat). Please bookmark and check our social media accounts weekly for updates.

Note: An updated 2026 FAQ, our gatekeeper list & our full Intel Drop link list (#1-77) has been posted on our website. We have also added a new social site on Bastyon.

Intel Drop #79

The following was collated from intel sent to our team from Gideon. As always, all intel sent by Gideon is edited by Michael for clarity and for obfuscation purposes (see: Adversarial stylometry):

Bill: Before we get to Iran - and we will, because what's happening there is significant - something happened to you recently that I think needs to come first. You attended a meeting, please address that.

Gideon: ***"I am limited in what I can say, but it was significant enough I think people should know some things about what occurred. I will have to choose my words carefully."***

Bill: How many people were in attendance?

Gideon: ***"A handful."***

Bill: Now, this was arranged by your whistleblower, the one working on Obsidian's A.I. module. Did you know who would be there and could you trust them and this situation?

Gideon: ***"I knew of everyone except one individual. There was definitely some risk in attending, for me."***

Bill: Ok, you've already told me about this, so I'll just give the readers some idea of what this was about. You were there to discuss Obsidian, discuss A.I., and share data. What did you learn?

Gideon: ***"I was shown things, documents and so on, that made the scale of the cabal's operation utterly undeniable. It was eye-opening."***

Bill: It was technology?

Gideon: ***"It was, yes."***

Bill: Something new, something we didn't know about?

Gideon: ***"That is correct. Something I do not believe we have ever speculated about or talked about in these Intel Drops before."***

Bill: What is it?

Gideon: ***"I will say that what I was shown made me reconsider assumptions I have held for years. Beyond that, I need to consider carefully what I can say."***

Bill: What was the reaction of the room, the others there?

Gideon: ***"Shock, I would say. Two of the individuals had no idea of the knowledge, either, but a few others in attendance did, and of course, the one sharing it."***

Bill: What's the sense of how it changes things?

Gideon: ***"It re-frames things. We have to start looking at things differently. Once I can disclose it, people will understand. Our last Intel Drop discussed some very important aspects of A.I., but this adds a lot more to what is going on."***

Bill: Now, there came a point things escalated. You were not expecting this at all, but someone confronted you.

Gideon: ***"Yes, one of the individuals in attendance stood up, the person I was not familiar with. He addressed me, and started talking about us, our team and mission. He said, 'You cannot do what you are doing. You are going to fail. Working from the inside is not how to resist this.'***

It was a very unexpected, abrupt moment. Everyone paused, the tension in the room was pretty noticeable."

Bill: What did you say back?

Gideon: ***"I told him the antidote is why we are doing it, why we must do it, among other reasons. Without Sovereign status, our team will be subject to the full weight of the system, the Starlink influence, the life-scripting, all of it. We need the protection it provides."***

Bill: Did he accept that?

Gideon: ***"No. He said we would be ineffective from the inside, and he fundamentally said it was simply wrong to work from the inside. He was very forceful about this."***

Bill: Was he threatening to you?

Gideon: ***"Not directly. But there was an intensity in him. It was not comfortable."***

Bill: Was there any cordiality between you and this individual at all?

Gideon: ***"I had greeted them with a handshake initially, that is all. The confrontation took place about one hour after our meeting began, and it ended up causing the meeting to end. Before that, this person had not spoken a word, they just sat back and listened, and examined some of the things presented."***

Bill: What do they think is going to happen to us?

Gideon: ***"They believed we would not be able to take much action once we were fully accepted into the new economy."***

Bill: Why not?

Gideon: ***"They think anyone who is accepted into it is not going to act against self-preservation and try to take down the cabal. They had no faith at all in our team. They began to***

question me, question who our team members were, our methods. That is where I cut things off, because this person was becoming angry. That is when the meeting ended."

Bill: We've actually warned our team about this, so we know the risks there and I have full faith and confidence in them. Did you express that?

Gideon: ***"I did briefly, but they would not listen. I did not have an opportunity to speak much because the situation was getting too intense, and it was ended, and we all agreed to depart."***

Bill: You said they had deep knowledge of the cabal and this new economy they are creating. Who told you that?

Gideon: ***"Other people who were there, after the fact. I had a few lengthy discussions about this person with third parties, just to try to learn more about them and what was going on, why they reacted against me and against us. I wanted to know why."***

Bill: Now, after all this went down, you all left. You said you felt you were being followed. Describe what happened?

Gideon: ***"I returned to my place of stay, not a hotel per se, but a safe place before I left the area. I was being followed. I have been in this game for decades, I know when I am being followed. A certain person kept appearing at various stages of my travel. They wanted me to know it, too."***

Bill: Who do you think it was and do you think it's related to this person, the confrontation with them?

Gideon: ***"It was absolutely related to them, it was someone connected to them. I think it was just a form of intimidation. I later learned more about this person, and what is going on.***

They are part of a faction, Bill. A faction aligned against the cabal, but with very, very different beliefs and a different approach than ours."

Bill: You're certain they're not an agent? Not a cabalist? Not there to maybe try to dissuade you or confuse the mission?

Gideon: ***"I cannot be certain of that, no. I am doing some research now on them and this faction, it could entirely be a cabal creation. The cabal is known to create their own opposition groups that they control."***

Bill: This person might not even know they are controlled, right?

Gideon: ***"Correct. Unless they are a very good actor, which is still possible. I felt they were***

Gideon: ***"Correct. Unless they are a very good actor, which is still possible, I felt they were sincere. They were passionate about what they believed. They believe in fighting the cabal from the outside, outside of Obsidian."***

Bill: I'm going to go back to this guy's belief about our team, they were so against us, do they not realize we need the antidote? What did they say about that? How could they just dismiss that?

Gideon: ***"That is a very good question, Bill. What I learned is that this group, this off-shoot, this faction, has convinced themselves, it seems, that they can overcome the nano tech. They do not think they need the antidote.***

They also do not think they need USDR. They expect to be placed under Obsidian's restrictive tiers and believe they can resist the system from that position."

Bill: What did these third parties say about them? You said you spoke to others about them, they told you about them. What's their opinion?

Gideon: ***"Somewhat neutral, but more favorable to our mission than that of this faction. We all felt the faction is operating more from ideology, they are not as rooted in the nuts and bolts of what we are facing.***

I personally think the perspective is admirable, to fight the system that way, but strategically, it makes no sense, especially when we have access to whistleblowers who can help us. In any espionage operation, you want advantages. They seem to want to start from having no advantage at all."

Bill: Can you describe this person? Should we give them a name or some way of referencing them?

Gideon: ***"They are ex-U.S. military, in their 60s. No name is needed at this point. The faction is also American-based, I should say, U.S.-based."***

Bill: Was there anything else the third party said about them?

Gideon: ***"A great deal, I had lengthy discussions. The consensus is that they are a trusted party, and this coalition or faction is a trusted group. They have knowledge of the cabal, they understand what is at stake, but they are not intending to accept help from the whistleblowers. So, it is a very different approach. They also appear to believe they can disable the nano tech, or they already have done so, through natural methods."***

Bill: Do you think they pose any risk to us, seeing as it looks like they had someone follow you?

Gideon: ***"A very minor risk. I think it is a case where we are going to move on and part ways, I***

hope. I did not get the impression we can work with them at all, or they will work with us."

Bill: Outside of this person who confronted you, there was a huge revelation at this meeting. Huge. How did it impact everyone, even this adversary of yours?

Gideon: ***"We were all aware of Starlink, the nano tech, the overall plan, but this was beyond that. I think it shook everyone. For me, it underlined the importance of what we are doing, why we have to, we must follow through on our mission. We cannot fail it."***

Bill: I know you can't say it, but can you give any hints? Anything at all?

Gideon: ***"I am not ready to share that yet. But when I do, it will change how everyone reading this understands what is coming. As I said, it is something we have never discussed before."***

Bill: You weren't able to ask directly, but you asked third parties about this natural remedy this faction is using to disable the nano tech. I'm very interested in that. What did they say?

Gideon: ***"I really hoped there might be a natural remedy, but what was imparted to me was nothing new, the usual remedies, some of which we see online relating to flushing out the Covid vaccine nano tech. Zeolite, chelation methods. It was not impressive to me, but they are convinced of it."***

Bill: Even if we could disable the nano tech naturally, it wouldn't change much for us.

Gideon: ***"No, we need to fight from within, we need USDR to have any ability to fight. I think this faction is going to find themselves flat-footed and a direct target of the cabal.***

Being Quarantined or Restricted status, as they will be, means they will have no ability to do much of anything. Right now, they cannot do anything, after the Reset, I do not see how their position will improve."

Bill: Was there anything else that came out of these discussions? You mentioned something about fear.

Gideon: ***"Yes, and this is really unusual. I learned among rank and file U.S. military and intelligence, they are afraid of something and they are putting on a brave face. We do not know what it is, specifically, but we do not think it has to do with Obsidian, or Starlink, or our intel. It is something else.***

These would not necessarily be cabal members, but Common status individuals who work with the cabal, knowingly or unknowingly. It would be a fairly sizable portion of the U.S.

military and intelligence arm. There is a deep fear among them."

Bill: Another thing was revealed on this point, too, about the cabal.

Gideon: ***"Yes, there are cabal members in a position of weakness or trying to work their way up the hierarchy, and they are worried about the future and where they will be placed in the hierarchy."***

Bill: How does that pertain to our team?

Gideon: ***"Our team is specially designated within Obsidian, they should know what I am talking about. They are actually in a decent position in that respect, but we will be sharing more with our team going forward on the hierarchy."***

Bill: This fear, what do you think it relates to, I mean the one the Americans are fearing?

Gideon: ***"We think Iran is the beginning of something and they know that, and they are afraid of what it really means in the long-term.***

I was told that certain briefings have been moved to in-person only, no digital records. That is not normal. That tells you something about the level of concern. They do not want it out, whatever it is, maybe because it would signal that the U.S. is very vulnerable in some way or facing something."

Bill: Do you think this off-shoot, this faction group has that same fear? Would it explain their behavior?

Gideon: ***"I have not asked that specifically of my sources, but I will. There was something about that man, he struck me as unsettled.***

For him to not see advantages in infiltrating the cabal, through the whistleblowers, as we have, to me, that is a blind spot. Whether blinded by fear, maybe ideology, maybe the nano tech itself, I do not know, but their position makes no sense to me."

Bill: But he understands the full picture?

Gideon: ***"He knows exactly what is coming, that is not in dispute at all, it was all openly discussed at the meeting. He is not the dark."***

Bill: It's brave to fight the cabal head-on, we wish them the best, we want them to succeed, too.

Gideon: ***"We do. I am glad they are there, they are working against the cabal. I do not want to give the impression I dismiss their purpose. I just question the logistics, as they question***

give the impression I dismiss their purpose. I just question the logistics, as they question ours.

It is ok to disagree, but the stakes are very, very high here. One mistake and we are finished. If they are wrong about the natural remedy, not only will they fail, we will not be able to trust them at all because they will be unknowingly under the influence of the nano tech."

Bill: I agree. Before I forget, I want to remind readers of Intel Drop #71 from October of last year, in which you said the cabal is actually trying to create the conditions of the Biblical Tribulation. Now, we find out the Trump Administration and the Department of War is directly trying to bring about "Armageddon". It's an incredible confirmation of your intel, just stunning and terrifying.

Gideon: ***"There is no question it is a confirmation."***

Bill: How bad do you see the war getting?

Gideon: ***"This war could spin out of control in days or weeks. Watch carefully. It already is. If oil prices stay this high, it is a catastrophe.***

I want to emphasize Trump's decision here is a major escalation - totally illegal, unwarranted, baseless and dangerous - and based on the U.S.'s bravado, they are not likely to back down. The more they push, the closer we get to WWIII."

Bill: It's interesting how much damage the U.S. and Israel are taking. Do you think Hegseth and Trump are actually somehow following the Bible and fulfilling scripture? They seem to think they are, at least Hegseth does.

Gideon: ***"You know the answer to that one, Bill, and the answer is no, not at all. They are controlled assets, controlled by Israel, which is trying to bring their own messiah forward. The Christians, the Evangelicals, have totally been deceived and they are led by wolves, by cabalists, by Chabad. Anyone still supporting Trump now is in grave spiritual danger."***

Bill: I re-tweeted someone who said that U.S., Israel and Iran are all working together. You've said that before. Do you still stand by that?

Gideon: ***"Yes, this is planned cabal theatre, coinciding with certain, important dates and numerology. They need a plausible conflict so they can bring in the Reset, and this can easily facilitate that."***

Bill: Ok, I know you have to go, one last thing. This person who confronted you, are they going to be a problem going forward for us? Them sending someone to follow you, it irks me.

Gideon: ***"The problem is what happens to them if they are wrong about the nano tech. If they are wrong, they will not just fail. They will become unwitting weapons against us, their minds and bodies fully under cabal control within weeks.***

At least we know this, and that is that the cabal does not want the nano tech to affect them, so the antidote is likely reliable and we will have access to it.

That is why I believe our mission is being divinely guided by our Creator, because I do not see any other way to defeat the cabal than what we have outlined for our mission. We are threading a needle and it is a miracle we are in the position that we are."

Bill: I'm thankful everyday we've made it this far. Thank you for your insight. I look forward to our next comms, hopefully we can speak longer. God bless.

Gideon: ***"You as well, Bill, goodnight."***

Our Team & Our Mission: **Fill out our questionnaire** to apply to join our mission to stop Obsidian & to protect you and your family.

A Call To Action: We are asking our readers to ***share*** this Intel Drop on social media, Twitter / X, Telegram, TikTok and Facebook. **We have been censored, shadow-banned and attacked for over three years. Without *your* help, *no one* would find our Intel Drops.**

A Personal Message From Bill: I am personally asking our readers to take one, small bit of effort that can really help us: Follow me on X /Twitter and *like, re-tweet and comment* on my shadow-banned account during the week. Because of the efforts of our supporters, one of my tweets finally went viral recently, reaching 30k views. The only way to overcome a shadow ban is with the help of people like you.
- Thank you, Bill Sweet @ x.com/OculumLabs

Please ***share*** this article, so we can keep spreading the word. All of our articles and Intel Drops can be found on our website at CBDCIntel.org and you can follow Bill's Twitter, contact Bill personally on his Telegram (billsweet1), follow our Official Twitter, our News Twitter and our Telegrams for updates (Comms, Public, News & Chat). Please bookmark and check our social media accounts weekly for updates.

Update: We continue to see serious problems with email. Emails like MSN, Me, iCloud, Outlook, AOL, Gmail, Gmx, Yahoo, Hotmail, Comcast and many others routinely BLOCK and CENSOR our emails. These email providers are also known to read your emails and offer no security at all. No one

should be using them, but many people who contact us are using them.

We recommend opening an anonymous account using Proton.me, Hushmail.com, Tutanota.com. These providers are end to end encrypted, and have proven they do not block our emails.

Update: If you have recently found our information, we recommend reading all of our posts going back to July of 2022, which have covered a multitude of issues in detail. You can find an introductory article here, our new Intel Drops here, and our older (censored) Intel Drops in our full link list.

Note: We also recommend reading our ***Cosmic Rules Are About To Change*** series of Intel Drops for the full context of what is transpiring from a spiritual perspective (Part 1, Part 2, Part 3, Part 4, Part 5, Part 6, Part 7 and Part 8.)
